DAVID GARRETT

LEAD / PRINCIPAL PRODUCT DESIGNER | B2B SAAS, CLOUD & AI PLATFORMS

Portfolio: higherwave.org LinkedIn relevantux@gmail.com (415) 336-9191 San Francisco Bay Area

---

PROFILE

Product design leader with 25+ years shaping complex enterprise SaaS, cloud, and workflow platforms. Combines systems thinking, research-led product strategy, and hands-on interaction design to make technical products clear, useful, and scalable. Experienced partnering across product, engineering, business, and customer teams—from 0-to-1 concepts through validation and delivery. Recent work includes AI-assisted workflows, agent-oriented product experiences, and end-to-end AI/MCP prototyping.

HIGHLIGHTS

- Designed and shipped enterprise experiences across Fortune 50 companies and high-growth startups.
- Use customer research and operational evidence to clarify the right problem and prevent strategic missteps.
- Lead across product strategy, UX architecture, design systems, data-rich workflows, and AI-enabled experiences.
- Hands-on with AI-assisted design-to-code workflows, including Claude Design, Claude Code, and MCP-oriented patterns.

SELECTED AI PROJECTS

Signal Flow | End-to-End AI/MCP Product

Designed and built an end-to-end product concept for ResearchOps, DesignOps, and ProductOps. The workflow moves from study planning and interview transcripts to AI-assisted customer themes, journey and priority maps, reviewed briefs, requirements, and trackable stories. Read-only demo. Full edit access: request an invitation using a Gmail address. View Signal Flow.

Prototype Gallery | Claude Design

A gallery of interactive product concepts and prototypes created with Claude Design, demonstrating rapid AI-assisted exploration and translation of product ideas into tangible experiences. View Prototype Gallery.

CORE SKILLS

Product Strategy • 0-to-1 Product Design • UX Architecture • AI / Agent Experiences • MCP & AI-assisted Design-to-Code • Figma • Design Systems • Data-Driven UX • Research & Usability Testing • Accessibility • Mentorship • Agile / Lean UX • Cloud Platforms (AWS, Salesforce) • GDPR / Data Privacy

EXPERIENCE

Netflix | Senior Product Design Consultant — Nov 2025 – Jun 2026

Los Gatos, CA (hybrid)

- Led research, Figma prototyping, and redesign of Argus, an observability system used by customer and partner support teams and supported by the CIA/SWT platform team.
- Redesigned information architecture and navigation based on interviews with 18 power users; the direction was user-validated for lower cognitive load and improved discoverability, while laying groundwork for agent-automated investigations estimated to save ~300 engineering hours annually.
- Designed an AI-driven developer portal for GCP and GPX platform teams, bringing disparate APIs, documentation, and tools into a more coherent experience.
- Partnered across Ads, streaming, client and partner services, gaming, legal, security, and engineering groups on AI assistant opportunities for technical and operations users.

6sense | Principal Product Designer — 2021 – May 2025

San Francisco, CA

- Directed 0-to-1 product strategy and design for an omnichannel advertising and marketing strategy automation platform, plus the supporting data-cleaning and workflow automation capabilities.
- Took a canvas-based workflow platform to GA readiness, including 80+ node panels, 30+ weekly beta users, and 11 usability tests on an approximately two-week feedback-to-fix cycle—bringing campaign design, testing, and automation into one place.
- Partnered with Product to define vision and workflows for integrated AI assistants and collaborated with the design systems team on data visualization and reusable platform patterns.
- Mentored a junior designer, building her understanding of platform concepts and the research needed to advance the product.

Aryaka Networks | Senior UX Architect — 2020 – 2021

San Mateo, CA

- Collaborated with front-end engineers to establish the company’s first design function and scalable design system.
- Designed complex workflows for network administrators configuring global IT networks and shaped mobile support strategy around customer needs and cross-platform usability.

Informatica | Senior UX Designer 2019 – 2020
Redwood City, CA

- Designed a GDPR-driven data privacy offering for the company's flagship cloud platform.
- Used customer research to redirect Product from a "sticky app" concept toward full automation, helping prevent a costly strategic misstep.
- Improved design system governance by co-creating audit and update processes.

Oracle | Principal Product Designer 2013 – 2018
Redwood City, CA

- Led research and design for Oracle Student Cloud, a SaaS product for universities, and created data visualizations for operations, cloud billing, and customer support platforms.
- Designed a 0-to-1 customer lifecycle application for CSMs, growing voluntary adoption from 0 to 4,000 users in approximately 13 months and replacing spreadsheets and 3+ internal tools with one source of truth.
- Redesigned onboarding, saving an estimated 1,600 CSM hours annually; shipped across web, tablet, and mobile, with partners including Deloitte and Accenture connected.
- Conducted global research in Romania and India to architect scalable Collections and Billing workflows.

Wells Fargo | Senior UX Consultant 2008 – 2013
San Francisco, CA

- Partnered with content strategists to migrate high-value online properties to a new CMS, created reusable design system patterns across banking platforms, and worked with business leaders to restructure navigation around content priorities.

EDUCATION & CERTIFICATIONS

- BS, Computer Science & Human-Computer Interaction | Walden University, 2008–2012
- AWS Certified Cloud Practitioner • AWS Certified AI Practitioner
- Salesforce Certified Platform Strategy Designer • Salesforce Certified Platform Administrator
